

EMPLOYMENT OPPORTUNITIES

Position Title: Operations Analyst

Position Number: 862829

Position Location: Wiesbaden, Germany

Position Summary:

The ultimate goal is to provide in theater military operators with timely and reliable forecasted information enabling tactical decisions and Course of Action (COA) selection. Development, operation and transition of selected systems occur within the Joint IED Defeat Organization (JIEDDO) Intelligence facility located in Northern Virginia, and several OCONUS Government locations.

The RoadRunner Expansion (RRE) program that this effort supports expands the RoadRunner (RR) infrastructure and establishes high performance storage array systems and servers at key CONUS and OCONUS locations for the purpose of timely access to large data types. The overall effort includes the system engineering, development, procurement, installation, and operations & maintenance (O&M) tasks to support program goals.

Position Specification:

The employee shall be SCI-clearable to provide on-site support of operations and maintenance (O&M) of the installed RoadRunner Expansion (RRE) hardware, software, and communications equipment including high performance storage arrays and servers located at Wiesbaden Army Air Field (WAAF), Germany. The employee shall provide data logistics operations to support the ingestion of CH and/or other sensor data onto the RRE architecture.

- Provide support to IT systems including: day-to-day operations, monitoring, problem identification, diagnosis and problem resolution
- Provide support for the escalation and communication of status to management and customers

Required Qualifications:

- Security + or higher information assurance certificate
- 5-7 years experience
- Works well in a team environment as well as independently
- Has ability to adapt to the changing needs of a project
- Has the ability to meet deadlines

Preferred Qualifications:

- Twister Data Framework Server for Administrators
- TACLANE KG 175 Training
- Administering Lustre Based Clusters
- DDN Storage Systems Administration
- SGI Altix XE 340 & 270 Hardware Maintenance

Special considerations:

Employee must be willing to live in Germany for 10-12 months.

Logos Technologies delivers innovative technology and program solutions enabling critical mission operations for our government (Defense, Intelligence Community (IC), and civilian agencies) and commercial clients. We also enable secure customer operations in all environments and against all threats.

We built our reputation for systems focus, technical excellence, and dedication to customer needs by employing a strategic blend of scientists, engineers, and senior analysts from diverse fields to pioneer best-fit solutions across multiple domains.

Logos offer employees a robust array of benefits, including virtually free health insurance -- a premier PPO plan sponsored by CareFirst/BlueCross BlueShield. Our 401(k) record keeper is Fidelity, the largest record keeper of 401(k) s in the world. We also provide dental, prescription drug, vision, life, AD&D, and short- and long-term disability insurance, health care and dependent care flexible spending accounts, gym membership, paid employee parking or a public transit benefit, and paid-time off.
